

Participant Screening Sheet

- Q1** Thank you for expressing an interest in the study exploring young peoples experiences of using crisis services during a time of suicidal crisis. This telephone call should take no more than five minutes to complete, is now an ok time to talk?
- Q2** To assess your eligibility for this particular study there are some questions that are a little sensitive, is there somewhere nearby you could go to where you will feel comfortable answering these questions?
- Q3** What is your age?
- Q4** Have you ever contacted Shout 85258 for your wellbeing?
- Q5** And how would you describe your level of English? Have you ever had to complete assessments to assess your verbal fluency?
- Q6** An important part of the interview is that the interview is recorded for later analysis. These recordings are held on a password protected device before being transcribed either by myself or 1st Class Secretarial, which is an external company regularly used by the University of Glasgow. Once the study is completed the audio files will be deleted. Are you ok with having the interview recorded?
- Q7** The next few questions are more to explore your psychological wellbeing. This study is specifically interested in people who have acted on intentions to die. Have you ever engaged in a suicide attempt?
- Q8** This study explores young peoples past experiences of contacting Shout85258 during an episode of suicidal crisis. How would you describe your level of suicidality now?
- Q10** What about other aspects of your mental health, do you feel you are experiencing any psychotic symptoms for example seeing or hearing things other people cant, or having irregular thoughts or beliefs?
- Q11** Do you have a cognitive impairment or learning disability?
- Q12** The final two questions are about the in-person meeting. The meeting for the study interview will be via video conferencing (Zoom/ MS Teams) and requires you to use an internet enabled device with a functioning microphone. Is this possible for you?
- Q13** And finally, this study aims to explore peoples experiences of Shout8528 prior to suicide behaviour. This study is for the purposes of research and suicide prevention. This meeting is not therapy, is that something you are comfortable with?

Q14 If eligible, the following details are needed to arrange the interview.

Interview date:_____.

Interview time:_____.

Contact details: (at least one)

Email_____.

Telephone:_____.

Q15 Would you like a text reminder within 24 hours of this meeting?

Q16 For your own convenience we would like to send you the study documents that were provided on the study website. This is just for your own convenience so you can have a look at them before coming in for the study. Is there an email address or postal address we could send these documents to you?

(one only)

Email: _____.

Postal address: _____.
